

# AQIRA Content Moderation Policy

Aqira is committed to providing a safe, respectful, and vibrant community where users can express themselves freely and connect with others. This policy applies to all content on the platform, including live streams, video uploads, comments, profile information, and direct messages.

## 1. Zero-Tolerance Violations (Immediate Termination & Permanent Ban)

The following violations will result in the **immediate termination of the live stream** and a **permanent ban** of the user's account (including IP and device hardware blocking). Where required by law, incidents will be reported to law enforcement.

- **Child Exploitation and Safety:** Any content that involves the sexualization, abuse, or endangerment of minors.
  - **Terrorism and Violent Extremism:** Promotion, praise, or recruitment for terrorist organizations or hate groups.
  - **Self-Harm and Suicide:** Live streams or posts depicting, encouraging, or providing instructions on suicide or self-harm.
  - **Dangerous & Illegal Activities:** Display or sale of illegal drugs, weapons trafficking, cyber-attacks, or promoting illegal gambling/betting platforms.
- 

## 2. Sexual Content and Nudity Policy

Aqira is a platform for social interaction and entertainment, not adult content.

- **Prohibited Content:**
    - Full or partial nudity (exposure of breasts, buttocks, or genitals).
    - Sexually explicit acts, gestures, or simulations during live streams or in profile media.
    - Wearing overly revealing clothing, sheer/see-through garments, or underwear-only outfits.
    - Promoting external adult platforms, escort services, or commercial sexual services (e.g., OnlyFans links).
  - **Enforcement:** First-time offenses will result in an immediate stream shutdown and a 3-to-7-day suspension. Repeated offenses will lead to a permanent ban.
- 

## 3. Hate Speech, Harassment, and Cyberbullying

Every member of the Aqira community deserves to feel safe. Aggressive behaviors targeting individuals or groups are strictly prohibited.

- **Hate Speech:** Attacking, demeaning, or promoting discrimination against individuals based on their race, ethnicity, religion, gender, sexual orientation, disability, or nationality.

- **Harassment & Bullying:** Targeted abuse, stalking, blackmail, or malicious exposure of private personal information (Doxing—such as sharing phone numbers or addresses without consent).
- **Abusive Language:** Excessive profanity, slurs, or vulgarity aimed at offending others in streams or comment sections.
- **Enforcement:** Depending on the severity, penalties range from official warnings and 24-hour streaming bans to permanent account suspension.

#### 4. Violence and Gore

- **Physical Violence:** Broadcasting physical fights, assaults, or acts of violence against humans or animals is strictly forbidden.
- **Gory Content:** Sharing images or videos depicting severe accidents, mutilation, torture, or excessive blood.
- **Threats of Violence:** Threatening to harm, injure, or kill another user or any third party.

#### 5. Copyright and Fraudulent Content (Spam)

- **Copyright Infringement:** Broadcasting intellectual property that you do not own, such as TV shows, movies, live sports broadcasts (e.g., official football matches), or copyrighted music without proper authorization.
- **Scams and Fraud:** Deceiving users to solicit gifts, virtual currency, or money under false pretenses, or exploiting system bugs for financial gain.
- **Impersonation:** Falsely claiming to be an Aqira official staff member, or impersonating celebrities and other popular creators.

#### 6. Moderation System and Enforcement Methods

Aqira utilizes a hybrid moderation model to maintain a safe ecosystem 24/7:

Moderation Method	How It Works
<b>AI Automated Screening</b>	Real-time computer vision detects nudity, gore, weapons, and inappropriate screenshots instantly. Text filters automatically censor profanity and banned keywords in chats.
<b>24/7 Live Moderation Team</b>	Human moderators review flagged content, user reports, and AI alerts in real time to take immediate action.
<b>User Reporting System</b>	Every user has access to an in-app "Report" button to flag violating streams, profiles, or messages directly to our team.

Moderation Method	How It Works
Room/Host Moderators	Streamers and agencies can appoint trusted users as "Room Moderators" to mute or kick disruptive users from their specific live sessions.

---

### 7. Penalty Tier System (Graduated Enforcement)

Except for Zero-Tolerance violations, penalties are generally applied progressively based on the user's history and gravity of the offense:

1. **Official Warning:** An in-app pop-up or inbox notification warning the user to stop the behavior.
  2. **Stream Interruption:** The current live stream is forcefully shut down by moderators.
  3. **Temporary Suspension:** The account is locked for 1, 3, 7, or 30 days (restricting streaming, commenting, or interacting).
  4. **Device & IP Ban (Permanent):** Complete termination of the account. The device ID and IP address are blacklisted to prevent new account creation. All accrued in-app virtual revenue (diamonds/coins) is forfeited.
- 

*Note: This policy is a foundational framework and should be adjusted to comply with local regulations (such as GDPR, COPPA, or specific regional internet laws) depending on where Aqira is launched.*
